Beschreibung

The s`Kasernmandl climbing crag is granite and 25 metres in height. There are easier and more difficult routes to choose from. This climbing crag is at the entrance to Trojer Tal in St. Jakob in the Defereggental. Parking spot is "Trojeralm" From there you can reach the climbing crag in about 30 minutes. Difficulty level: from 4. The terrain has a slight incline and has plenty of stopping points – up to 9: Climbing-specific strength is required to cope with this difficulty level, as is a polished climbing technique.
